

Wavy Mesh Sliding Shutters

Wavy Mesh Sliding Shutters offer a perfect solution to regulate light and heat and at the same time bring a spectacular architectural element to the facade that is striking in appearance. The application of stretched and corrugated aluminium mesh provides the required shading and allows an open view onto the street outside. A wide range of shapes, sizes and colours provide added design freedom.

Key features

- Unique Wavy Mesh material: spectacular three-dimensional aluminium mesh in various shapes and sizes
- Special designed aluminium frame to accommodate mesh material without visible fixings
- Spectacular range of anodisation colours
- All materials are totally weather resistant and require very little maintenance
- Manual application or reliable motorisation to increase functionality.
